

Hydrofera Blue Ready

WOUND CARE DRESSING
APPLICATION GUIDE

Ready. Set. Go.

**Simply set in place
and secure;
no hydration required.**

Use When:

- Antibacterial properties are needed to help prevent infection
- Absorption of moderate to heavy levels of exudate is required
- Compression therapy is needed
- Total contact casting is needed

Application:

- Simply place and secure; no hydration required
- Secondary dressing not required
- Tape or wrap required for fixation

Wound Site Preparation

1 Cleanse the wound bed in accordance with established procedures.

Select Size and Apply

2 Select the appropriate dressing size to ensure the dressing will cover the entire wound.

Secure

3 Secure the dressing using a bandage or tape.

Hydrofera Blue Ready foam can be used in conjunction with compression wraps and total contact casting.

Wear Time

4 Dressing can be left in place up to 7 days, depending on the exudate level and clinical conditions of the wound.
